## ANNOUNCEMENTS

## FOR CONGRESS.

We are authorized to announce RALPH GILBERT, of Shelby county, a candidate for the Democratic nomination for Congress in this, the Eighth Congressional District of Kentucky. State Primary Election Saturday, August 7, 1920.

We are authorized to announce FRANK L. BIPY, of Anderson County, a Democratic candidate for Congress, in the Eighth district, subject to the action of the State primary, August 7, 1920.

## REPUBLICAN STATE CONVENTION.

Every county in the State was represented at the Republican State Convention, held in Louisville, last week. So far as our reading goes, it was a very harmonious gathering.

Mr. E. T. Franks, of Owensboro, took occasion to air himself, but the speech of the convention was made by Mr. Hays, the National Committeeman.

The resolutions adopted denounced every thing done by Democrats and lauded the Republicans to a very high degree.

The morning after the convention the sun rose in the East, and just before twilight it set in the West.

The object of the convention was to name delegates to the National Convention, and here they are:

## DELEGATES FROM THE STATE-AT-LARGE.

Mrs. Christine Bradley South, Frankfort.

Gov. Edwin P. Morrow, Somerset.

A. T. Hert, Louisville.

Dr. S. H. George, Paducah, a negro.

## ALTERNATES.

H. Green Garrett, Winchester.

Mrs. John W. Langley, Pikeville.

Dr. Ben L. Bruner, Louisville.

George F. David, Lexington.

## PRESIDENTIAL ELECTORS.

W. J. Deboe, Marion.

Samuel Willis, Ashland.

## STATE CENTRAL COMMITTEE-AT-LARGE.

Mrs. John W. Langley, Pikeville.

Maurice Galvin, Covington.

Robert Hunter, Providence.

Ed Chenault, Lexington.

Louisville is now making an effort for a \$1,000,000 auditorium. The plan is for the city to vote \$500,000 in bonds and the other \$500,000 is to be raised by subscription. If the effort proves successful, Louisville will have the finest auditorium in the United States. This building will also stand as a memorial for Louisville soldiers who were killed in France.

Under the head of announcements it will be seen that Col. Frank L. Ripy, of Anderson county, is a Democratic candidate for Congress in the Eighth district, subject to the action of the State primary, to be held August 7. He is a gentleman of ability, a fine speaker and will make a thorough canvass of the district. He is strongly endorsed by his home people. He is a prominent lawyer, was a Lieutenant Colonel in the world war, went over seas and did valiant service for his country. He will see the Democrats of Adair at an early day.

Senator Robt. Antle's bill for a non-partisan board of education with authority to appoint Superintendent and teachers has been passed by the Senate. The question is how can it be a non-partisan board. There will be three to two every time an appointment is up. There will surely be three Republicans and vice versa.

In the District Republican Convention, held at Danville, on the 1st inst., Hon. G. L. Perryman, of this county, was named as the Elector for the Eighth Congressional District.

## ELKS BECOMING THRIFTY.

The pledge of the Elks of New York State to secure among their membership the absorption of \$500,000 worth of War Savings Stamps not only will be fulfilled but the goal will be reached months before the time limit set, according to reports to the Savings Division of the Treasury Department.

Sixteen of the sixty seven lodges in the state already have exceeded their quotas, twenty eight are rapidly approaching the top and the remaining twenty three are making such efforts that their goals are assured.

## THE BANKER KNOWS.

The National Banker, in discussing the encouragement by bankers and bond dealers of partial payment plan of purchasing government securities and other high grade bonds as an aid to thrift among people of moderate means, says:

"The public at large should hold five times as many high grade bonds as it owns now—and correspondingly fewer wildcat securities.

"The people owe it to themselves to keep clear of stock and bonds of uncertain character. They should also avoid dealers of doubtful reliability. The losses every year through dishonest bond and stock dealers and their fraudulent shares are simply beyond belief.

"Furthermore, these losses in a majority of cases fall on working people who have invested unwisely. Every first-class house should do its share of educational work in training people to avoid bogus securities. In doing this the reliable dealers are building for the future, for they have it in their power to place sound and profitable bonds and stocks within the reach of all, and the more thoroughly they develop their selling methods the more quickly will they drive out of business a class of unreliable concerns that live by imposing on public credulity."

## West Point, Miss.

Mch. 3rd, 1920.

Editor The News:—

The only snow in this part of the country, this winter, was a little seen in the air for a few minutes last Sunday, the last day of February. March came in with sunshine and pleasant temperature and work on the farm is under headway. The last two weeks has been ideal farm weather and it was used to good advantage. We have had too much rain this winter, but that seems to have been true of many parts of the country.

Aside from the rain we have had a very mild winter, our coldest spell dropping the mercury to 18 above, nothing for two or three nights. Corn is selling from \$1.75 to \$2 per bushel and hay from \$20 to \$35 per ton. Most all the cotton has been put on the market and brought from 35 to 40 cents per pound. Mules are in good demand and bringing good prices but not higher than in your section according to market reports. The foregoing indicates that I am writing a letter and not an article of any merit so this is my real intention. In most of my communications I have not made mention of the several families who live here and formerly from Adair Co., but in this I feel that in justice to them, and for the pleasure of their kin and friends who read The News, I will report their whereabouts as best I can. At this writing they are all in fine health and in love with this country, and doing well. All of us are making preparations for a big crop and if the season is good will deliver the goods next fall. R. K. Young and W. H. Gill will operate extensively on their 1200 acre plantation near Macon. They will put in several hundred acres of cotton and corn to adorn their fields and the lowing herds of fine beef cattle will replenish their purses after the St. Louis market does its do next fall. Mr. Young and Clellan Moore, formerly from Green county, are united in a 500 acre plantation and Mr. Moore is in charge. He and family are highly pleased and the future is bright for them. This plantation, 3 miles out of Macon, will attest its worth with two to three hundred acres in cotton and corn while its fine pastures will graze a splendid herd of extra grade of cattle. They have a good number of fine Black cows and are adding daily to the list such as promise good returns. Mr. Young and Mr. Perkins, formerly from Garrard county, own 320 acre farm 4 miles out of this place and on this a big crop of cotton is to be planted. Mr. J. A. English recently sold his farm for a good net profit and has removed to this city. At present he is not actively engaged but is likely to be in agriculture before a great while. Mr. Marvin Traylor and family are pleasantly located on their splendid farm just outside the corporate limits of West Point. Mr. Traylor will put out about 60 to 75 acres mostly in cotton. He will also have an acre or two in melons. He has the best of farm machinery and can do his work on riding plows, harrows and cultivators. He has refused \$55 per acre profit on his farm, but he will not sell.

Mr. Ernest Yates, is in charge of my farm. He has seven good sized negro families and will put out a good crop. It is our purpose to cultivate 200 acres in corn and cotton or more if we can, while some outsiders will put in 50 to 75 acres more. In addition to corn and cotton we will sow oats and some Alfalfa, but the temptation to raise cotton got the best of me. If it is a good season it will be a paying crop as it looks like 40 cent cotton next fall. Mr. Yates has over 100 acres turned and six to seven teams will soon fix the entire acreage and do other things beside. We are all sorry that the Hood Brothers are not in position to be in charge of their farm here. It is a good one and as pretty as in this country. It is an alfalfa proposition nearly every acre of it. Most of the people have planted gardens and I am one of the people. This part of the country is about six to eight weeks earlier than in central Kentucky and this is one of the reasons it appeals to me. I am tired of long, cold winters and should I ever leave this country I feel like going nearer the equator. In fact I am not a lover of cold weather. The sunshine suits me and I feel like that I have found the country that gives me shine. Farms are still selling, but no big rush on and not likely for some time, as most people do not want to prospect while the ground is bare. The middle of April and May is a splendid time to see what this land will do and buyers will be here at that time. There are many great bargains here in as fine land as in any country and I would like to see some of my old friends own them. I have no inclination to double shovel on poor land and on hill sides. With best of wishes.

C. S. Harris.

## Portland.

There have been several cases of flu in our town, but all have recovered.

Mr. V. R. Curry made a business trip to Greensburg Saturday.

Mrs. Jennie Squires visited her mother, Mrs. J. A. Parson, several days of last week.

Kessler Bros. are erecting a feed barn on their place.

Mr. Tom Dudley has begun moving to his place he purchased from R. L. Davis.

Mr. Edwin Burrell, of Donans-

## For Sale—Live Stock.

Two mare mules, 4 and 8 years old; one mare; one good buggy horse; 18 head of old sheep and six lambs.

Phone L. M. Smith,  
Cane Valley, Ky.

## The American League.

Fifteen young men who were either soldiers or sailors in the late World war, have made application for a charter, and a League will be established at this place sometime in the near future. It is a non political organization, its objects being for the betterment of man. It is in no sense connected with the army, purely a civilian organization, to build up high ideals, thereby making better citizens.

Those who served in the army, Navy or Marine corps are eligible to join.

See E. W. Read for further information.

We have to pay our accounts so please call and pay yours.

Neil & Cheatham.

## WATCH SALE

I have just received a nice assortment of ELGIN and BRACELET WATCHES, which will be sold at SPECIAL PRICES during march. Don't fail to see them.

You know how boys tear up watches. I have the thing for them. Father knows from own experience the real value of an INGERSOLL

L. E. YOUNG,  
"JEWELER"

Columbia,

Kentucky.

burg, visited his sister, Mrs. V. R. Curry, last week.

Mr. Allen Parson, our produce man, made a trip to Greensburg last Wednesday.

Mr. Lewis Compton is very busy making feed baskets these winter days.

Mr. Dick Rodgers has been confined to his room several days with nervous trouble.

Only a few plant beds have been burned here.

Master Guy Dohoney is planning for a big crop of tobacco this year.

The farmers are behind with their work on the account of bad weather.

Mr. Howard Curry, of Greensburg, is visiting his brother, at this place.

## Rowetown.

There is quite a lot of sickness in this community, such as pneumonia and flu.

Walter Compton bought a farm, near Nell, known as the Logan Reece farm. Price unknown.

Mr. R. H. Kinnaird has moved to his new home, near here, known as the Moss Gibson farm, and we must say he has brought with him the nicest lot of goats that has been seen in this country for a long time.

Several from this place attended the sale of Mr. W. R. Janes, at Sparksville, and reported everything sold well. Mr. Janes aims to make Texas his home.

Mrs. J. M. Thompson, who was sent to Lakeland asylum some time ago, improves slowly.

Mr. Ira Flatt is attending school at Bowling Green.

## LOOK, READ AND COME!

To Cane Valley if you want BARGAINS in DRY GOODS and SHOES. SALE BEGINS MARCH 5TH, AND ENDS MARCH 15TH.

The flu is over here, we have all had it, and are all up again. Recently I purchased the stock of goods of Union Store Co., and on Feb. 1st I purchased the building and stock of goods of T. A. Furkin. I have moved all these goods to the Furkin building, and I have an enormous stock of goods, and must get rid of them to make room for the rest of my spring line. Now I am going to give 5 and 10 per cent. off on merchandise. Don't wait. Come on beginning of this sale. Telephone your order for fertilizer at once if you want to haul it, and get it at cost R. R. crossing—V. C. Carolina Fertilizer.

## FARMING IMPLEMENTS AND MACHINERY.

I have all kinds, Vulcan and Oliver Chill Plows.

L. M. SMITH DEPARTMENT STORE,  
Cane Valley, Kentucky

## SCORES OF PEOPLE HAVE FOUND TRUTONA UNFAILING AS PREVENTIVE OF "FLU"

"This Medicine Saved Me From Having Influenza," Mrs. Sears Declares—Many Similar Statements Furnish Unquestionable Proof.

Since reaching the definite conclusion that as yet no cure for influenza has been found, health authorities are practically unanimous in their opinion that Prevention is the one best means for stamping out the dreaded disease.

As to the best means of insuring effective prevention the answer is to be found in Surgeon General Blue's recent statement in which he says, "It is important that the body be kept strong and able to fight off disease germs."

Public statements from scores of people have proven that there is no better agency for providing body strength and vitality to withstand attacks of disease than Trutona. Many will remember the remarkable work done by Trutona last year when, in innumerable cases, serious after-effects of influenza were quickly overcome by the perfect tonic. In only a slightly lesser measure has Trutona been declared to have prevented attacks of the malady.

## ONE OF THE MANY CASES.

Mrs. Josephine Sears, 2803 Portland avenue, Louisville, after gratefully describing the many remarkable benefits she gained from Trutona, says: "I really believe this medicine saved me from having influenza."

There are scores of other similar statements, too numerous to mention, and they prove conclusively that Trutona is truly a remarkable agency for the prevention of influenza as well as an unequalled reconstructive tonic for overcoming bad after-effects of the disease.

Trutona's healthful action reaches every portion of the body. Performing its work faithfully and efficiently, Trutona rebuilds diseased nerves and tissues, creates a healthy appetite and assists in digestion and assimilation of food, the results of which are invariably to be seen in the ruddy cheeks and sparkling eyes of those who have taken the perfect tonic.

Don't take a chance—take Trutona. Trutona is sold in Columbia at Pauli Drug Company. Adv
